E1 Sem2 (2022)Regular & 2021(Remedial) EST Examinations, April-25

23CS1201-Object Oriented Programming through Java
(Computer Science and Engineering)

Time: 3 hours Student I.D No.: R220711 Max Marks: 60

Part – B

Answer all the following Questions. Each question carries seven marks 6X7= 42 Marks

UNIT-1

1 A) Write a program to print the area and perimeter of a triangle having sides of 3, 4 and 5 units by creating a class named 'Triangle' without any parameter in its constructor. 3M

B) Write a program to print the names of students by creating a Student class. If no name is passed while creating an object of Student class, then the name should be "Unknown", otherwise the name should be equal to the String value passed while creating object of Student class. 4M

(OR)

2 A) Write about garbage collection in Java. 3M

B) Explain any two uses of 'this' keyword with an example program? 4M

UNIT-2

3 A)Write a program to check if the letter 'e' is present in the word 'Umbrella'. 3M

B)How wrapper classes useful in java programming ? How wrapper class concept different from type conversion. 4M

(OR)

4 What is the difference between String class and StringBuffer class?What are the methods of StringBuffer class? Explain with Example Programs ? 7M

UNIT-3

5 With suitable program segments describe the usage of super and final keyword. 7M

(OR)

6 Explain about the Dynamic Method Dispatch in Java with example program. 7M

UNIT-4

7 Illustrate the usages of BufferedWriter and BufferedReader classes in Java? 7M

(OR)

8 A) Write a java program to implement the multiple catch blocks statements 3M

B) Differentiate between throw and throws keywords with example ? 4M

UNIT-5

9 Explain thread Synchronization in Java with an example program? 7M

(OR)

10 What is Multi threading? How to create threads in java(2M+5M) 7M

UNIT-6

11 A) How to create JFrame in java? 7M

B) Write a java swing program to find the sum of two numbers.

(OR)

12 Explain the Border layout manager and Grid layout manager? 7M

***** THE END *****

23CS1201-Object Oriented Programming through Java
(Computer Science and Engineering)

Time: 3 hours Student I.D No.: R220711 Max Marks: 60

Part – A

Answer all the following Questions. Each question carries one mark. 18 X 1 = 18 Marks

1 Which component is responsible to optimize bytecode to machine code?
A JVM
B JDK
C JIT
D JRE

2 Which statement is true about Java?
A Java is a sequence-dependent programming language
B Java is a code dependent programming language
C Java is a platform-dependent programming language
D Java is a platform-independent programming language

3 What will be the output of the following Java code?

```
class increment {
 public static void main(String args[])
 {
  int g = 3;
   System.out.print(++g * 8);
      }
   }
```

A 32
B 33
C 35
D 34

4 Which of these method of String class can be used to test to strings for equality?
A isequal()
B isequals()
C equal()
D equals()

5 Which of the following statements are incorrect?
A String is a class
B Strings in java are mutable
C Every string is an object of class String
D Java defines a peer class of String, called StringBuffer, which allows string to be altered

6 What will be the output of the following Java program?

```
class string_demo
  {
    public static void main(String args[])
    {
      String obj = "I" + "like" + "Java";
      System.out.println(obj);
    }
  }
```

A I
B like
C java
D Ilikejava

7 In order to restrict a variable of a class from inheriting to subclass, how variable should be declared?
A Protected
B Private
C Public
D Static

8 Which of these package is used for graphical user interface?

A java.awt
B java.applet
C java.io
D java.awt.image

9 An interface in Java is like a 100% ___.

A inner class
B public class
C abstract class
D anonymous class

10 Which of these class contains the methods used to write in a file?

A FileStream
B FileInputStream
C BUfferedOutputStream
D FileBufferStream

11 Which of these exception is thrown in cases when the file specified for writing is not found?

A IOException
B FileException
C FileNotFoundException
D FileInputException

12 Which of these exception is thrown by close() and read() methods?

A IOException
B FileException
C FileNotFoundException
D FileInputOutputException

13 Thread priority in Java is?

A Integer
B Float
C double
D long

14 What will be the output of the following Java code?

```
class multithreaded_programing
  {
    public static void main(String args[])
    {
      Thread t = Thread.currentThread();
      System.out.println(t);
    }
  }
```

A Thread[5,main]
B Thread[main,5]
C Thread[main,0]
D Thread[main,5,main]

15 What is the priority of the thread in the following Java Program?

```
class multithreaded_programing
  {
    public static void main(String args[])
    {
      Thread t = Thread.currentThread();
      System.out.println(t);
    }
  }
```

A 4
B 5
C 0
D 1

16 Which of these packages contains all the classes and methods required for even handling in Java?

A java.applet
B java.awt
C java.event
D java.awt.event

17 Which of these methods are used to register a keyboard event listener?

A KeyListener()
B addKistener()
C addKeyListener()
D eventKeyboardListener()

18 Which of these events will be generated if we close an applet's window?

A ActionEvent
B ComponentEvent
C AdjustmentEvent
D WindowEvent

Q.P. Code: 24R23122008/B

E1 Sem2 (2022)Regular & 2021(Remedial) EST Examinations, April-25

23BM1201 Managerial Economics and Finance Analysis
(Computer Science and Engineering)

Time: 3 hours Student I.D No.: R220711 Max Marks: 60

Part – B

Answer all the following Questions. Each question carries seven marks 6X7= 42 Marks

UNIT-1

1 "Managerial economics is the integration of economic theory with business practices for the purpose of facilitating decision- making and forward planning by managers". Explain. 7M

(OR)

2 Define demand and explain the Law of demand & determinants of demand 7M

UNIT-2

3 What is the concept of production function? List out the distinction between short-run and long-run production. 7M

(OR)

4 Anjali & Co., has supplied you the following information. 2M

Fixed Cost Rs. 1,20,000; Variable Cost per Unit Rs.15; Selling Price per Unit Rs.30 2M

Find out: BEP Units (b) BEP in Rupees (c) Sales to get a profit of Rs.50,000. 3M

UNIT-3

5 What is market structure? Explain the main features of monopoly market. 7M

(OR)

6 Define a joint stock company & explain its basic features, advantages & disadvantages 7M

UNIT-4

7 What you mean by capital? Explain the various source of capital. 7M

(OR)

8 MG&MA Ltd considering two projects (X and Y). Initial investment of each project is Rs 1,50,000. cost of capital 10% 7M

Cash inflows as follows:

Year	1	2	3	4	5
Project X	40,000	35,000	45,000	48,000	42,000
Project Y	50,000	35,500	38,500	30,000	45,000

Suggest which project is acceptable with using of NPV method.

Present Values @10%:

Year	1	2	3	4	5
PV factor	0.909	0.826	0.751	0.683	0.621

UNIT-5

9 Define Accounting. Briefly explain the accounting principles. **7M**

(OR)

10 Journalize the following Transactions from the books of Miss. Harsitha 2024 **7M**

Jan -1 Harsitha Commenced business with a capital of Rs.10,00,000

Jan-5 Purchased furniture Rs.10,000

Jan- 7 Sales Rs.12,500

Jan-10 Paid Salaries Rs.50,000

Jan- 18 Cash deposited into bank Rs.50,000

Jan- 25 Purchased goods from santhoshi Rs.80,000

Jant-30 Cash withdraw from bank Rs.20,000

UNIT-6

11 What are the financial statements? Explain the different techniques used for financial statement analysis. **7M**

(OR)

12 What is the concept of ration analysis? List out the different ratios used in business organization. **7M**

23BM1201 Managerial Economics and Finance Analysis
(Computer Science and Engineering)

Time: 3 hours Student I.D No.: R220711 Max Marks: 60

Part – A

Answer all the following Questions. Each question carries one mark. 18 X 1 = 18 Marks

1 The basic economic problem is the problem of

A Scarcity of resources
B Abundance of resources
C Human Resources
D None of the above

2 Which subject studies the behavior of the firm in theory and practice?

A Welfare Economics
B Managerial Economics
C Micro Economics
D Macro Economics

3 When the supply of a product is increased, then price of the product is

A Increased
B Decreased
C No change
D None of the above

4 Production function means:

A Physical relationship between inputs used and output.
B Technical relationship between inputs used and output
C Financial relationship between inputs and output
D Both Physical and technical relationship between inputs used and output

5 In monopoly a single firm is selling:

A A single product for which there are close substitutes
B Two products for which there are no close substitutes
C A single product for which there are no close substitutes
D None of the above

6 Example of fixed cost

A Raw material
B Room rent
C Power bill
D Labour cost

7 When different combinations of inputs yield the same level of output Known as _____.

A Different Quants
B Isoquants
C Production differentiation
D Output differentiation

8 In perfect competition market, seller is the _____.

A Price maker
B Price taker
C Price changer
D Price Dictator

9 Minimum ___ and maximum ___ members are permitted in public limited company.

A 5-20

B 2- Unlimited

C 7- Unlimited

D 7-50

10 Capital budgeting decisions are

A Investment decisions

B Financial decisions

C Working capital decisions

D None of the above

11 What is the formula for profitability index?

A Present value of cash inflow – Present value of cash outflow

B Present value of cash inflow /Present value of cash outflow

C Avg. Investment /Avg. earnings

D Original cost of the project/ Avg. earnings

12 _____ holders are the real owners of the company.

A Debenture

B Preference share

C Equity share

D Bond

13 If a trial balance total does not agree, the difference must be entered in

A Trading account

B Profit and loss account

C Suspense Account

D Capital account

14 "Bank over draft" is a _____.

A Fixed Asset

B Current asset

C Long term liability

D Current liability

15 "Net Profit" can be found out by preparing _____.

A Trading account

B Trial balance

C Balance sheet

D Profit and Loss account

16 The relationship between two numerical values is called as ___.

A Account

B Ratio

C Ledger

D Trend analysis

17 ideal ratio for quick ratio

A 2:1

B 1:1

C 1:2

D 3:1

18 Which of these are not the methods of financial statement analysis?

A Ratio Analysis

B Comparative Analysis

C Trend Analysis

D Capitalization Method
